

KCKELLIE • HOTEL PARTNERSHIP KIT

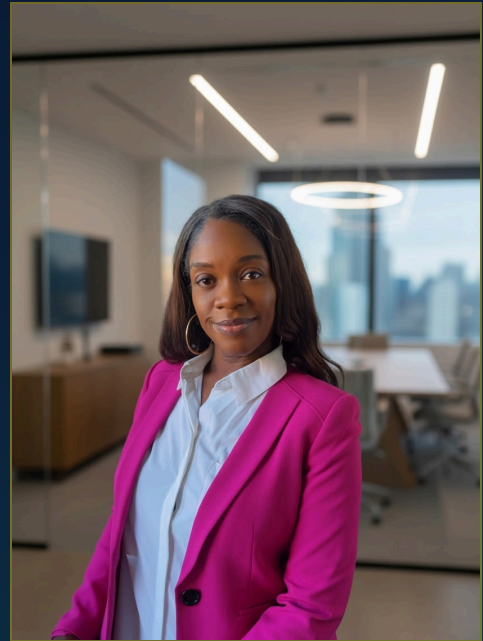

KELLIE

Overnight stays, told as one continuous evening — for people who live here.

KANSAS CITY METRO (MISSOURI AND KANSAS)

PARTNERSHIP IDEA

One evening, one continuous stay story — host one evening stay; Kellie films the arc and publishes while still on property.

WHY HOTELS WORK WITH KELLIE

Kellie films Kansas City in her own voice the same day she experiences it. For hotels she covers the full arc of a stay — arrival, room, restaurant, and neighborhood — so the property reads as somewhere locals would choose, not only somewhere visitors land.

PARTNERSHIP CONCEPT

One evening, one continuous stay story

Host Kellie for a single evening stay. She films arrival through the room, a meal or lounge moment, and a short neighborhood beat — then publishes an in-feed video plus Stories while she is still on property.

- One in-feed short covering arrival, room, and property in a single evening
- Story set published live during the stay
- Stills of the room and public spaces for the property's own organic channels
- Paid amplification and extended usage licensed separately when needed
