

Kellie

Kansas City creator â local-first video for visitors and residents

Kellie is a Kansas City content creator making short, first-person video about the city â where to eat, where to stay, and what is worth leaving the house for. Her work is filmed and edited on the day, in her own voice, for people who actually live here. For destination marketing she covers a place the way a resident recommends it, which is what travellers are searching for when they distrust an ad.

Market: Kansas City metro (Missouri and Kansas)
